FEI - THE SCHOOL

A hearty welcome to Fayaz Educational Institute

Welcome to the abode of intellect where the purpose of education is to equip children with the most excellent technological proficiency to empower them with the skills in order to realize his/her innate potential; to create the right climate so that the child may develop fully as a complete human being. At FEI, one's intellect is transformed into an illuminated reflection of knowledge & broad outlook towards life.

Fayaz Educational Institute, a J&K Government Recognised Senior Secondary School; affiliated to the J&K Board of School Education up to +2 level (Class 12th) has been established at Nowgam Srinagar in November 1988 to impart quality education. FEI has been established to make children all-rounder and self-dependent individuals with a vision to empower knowledge & excellence along with an inculcation of nation, cultural and moral values.

The school provides a broad range of activities, contents, approaches and learning opportunities which promotes each child to discover and develop their own strengths. The students are with varying intelligence abilities, interests & skills; therefore, the curriculum is curated to involve students with multiple learning styles.

“Every child can learn and be successful”

Vision

- To prepare dynamic and caring citizens of tomorrow to meet the challenges of a global society while retaining their traditional and moral values.
- To develop our school into a vibrant and an exemplary educational institute where students are nurtured, encouraged and motivated to achieve their ultimate potential by exploring limitless possibilities with utmost confidence, dedication and excellence.

Mission

To educate young minds for all-round development: academic, moral, spiritual, physical, aesthetic, social values & vocational education. Above all, obedience to Allah & service to his creation.

School Philosophy

We expect students to be respectful, responsible & to rise to the challenges of life. We believe, with unpunctuated faith, in the following principles. Besides this, we believe that shaping the overall personality of the student is of paramount importance & will offer total personality development as part of the curriculum transaction. We provide individual attention to our students, thus enhancing their ability to acquire & synthesize knowledge.

The essence and philosophy
of our school centres around

Empowering Knowledge,
Inspiring Excellence,
Adopting Innovation and Instilling Values

FEI Values

BE AMBITIOUS

Always strive to achieve your best-set challenging goals & work hard to reach them. Support others with their ambitions

BE AUTHENTIC

Be confident in yourself. Always be honest, loyal and trustworthy

BE COURAGEOUS

Trust yourself and never let fear stop you trying. Find opportunities. Understand the rise and ensure your ideas lead to positive actions

BE KIND

Care for others & value yourself. Understand the value of diversity and offer help where you can.

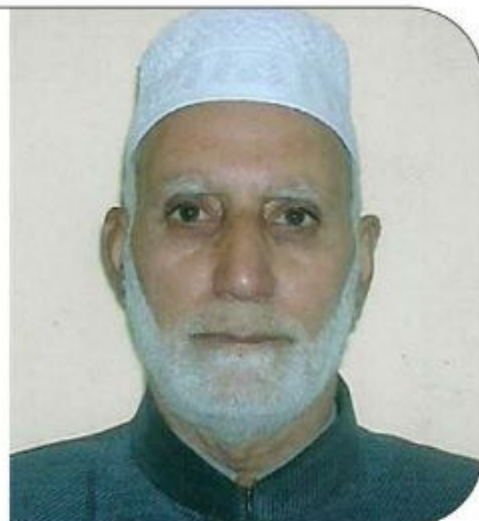

Our Emphasis

Our values and attributes – which align with our guiding statements, are integral in creating a school atmosphere and culture to realise our educational goals.

From the Principal's Desk

Education” is to draw out and refine whatever the potentialities the child is gifted with. It is the complete development of individuality of the child so that they can make an original contribution to human life according to the best of their capacity. Anything or any act that contributes towards the experience of the child is of educational value. In a world of Science and Technology, it is education that determines the levels of prosperity, welfare and security of the people.

“Education” is a triangular process – the teacher, the taught and the parents; all the three components are inseparable. Our subject is the taught and as such let us join hearts, heads and hands to draw the best from the child.

Though school can mean a lot for a child, as it creates a highly maintained atmosphere of discipline, manners, knowledge and better education among the students, yet it cannot do everything. Home is the first school & parents are the first teachers. A child starts learning from the time of birth and thus starts learning at their respective home. The child, for most of the time, remains with their family; consequently the family atmosphere of the child is more essential than the social environment.

In real sense the school is an idealized epitome of social life & the school is a place which consensus and promotes cultures for civilization prepares children for citizenship.

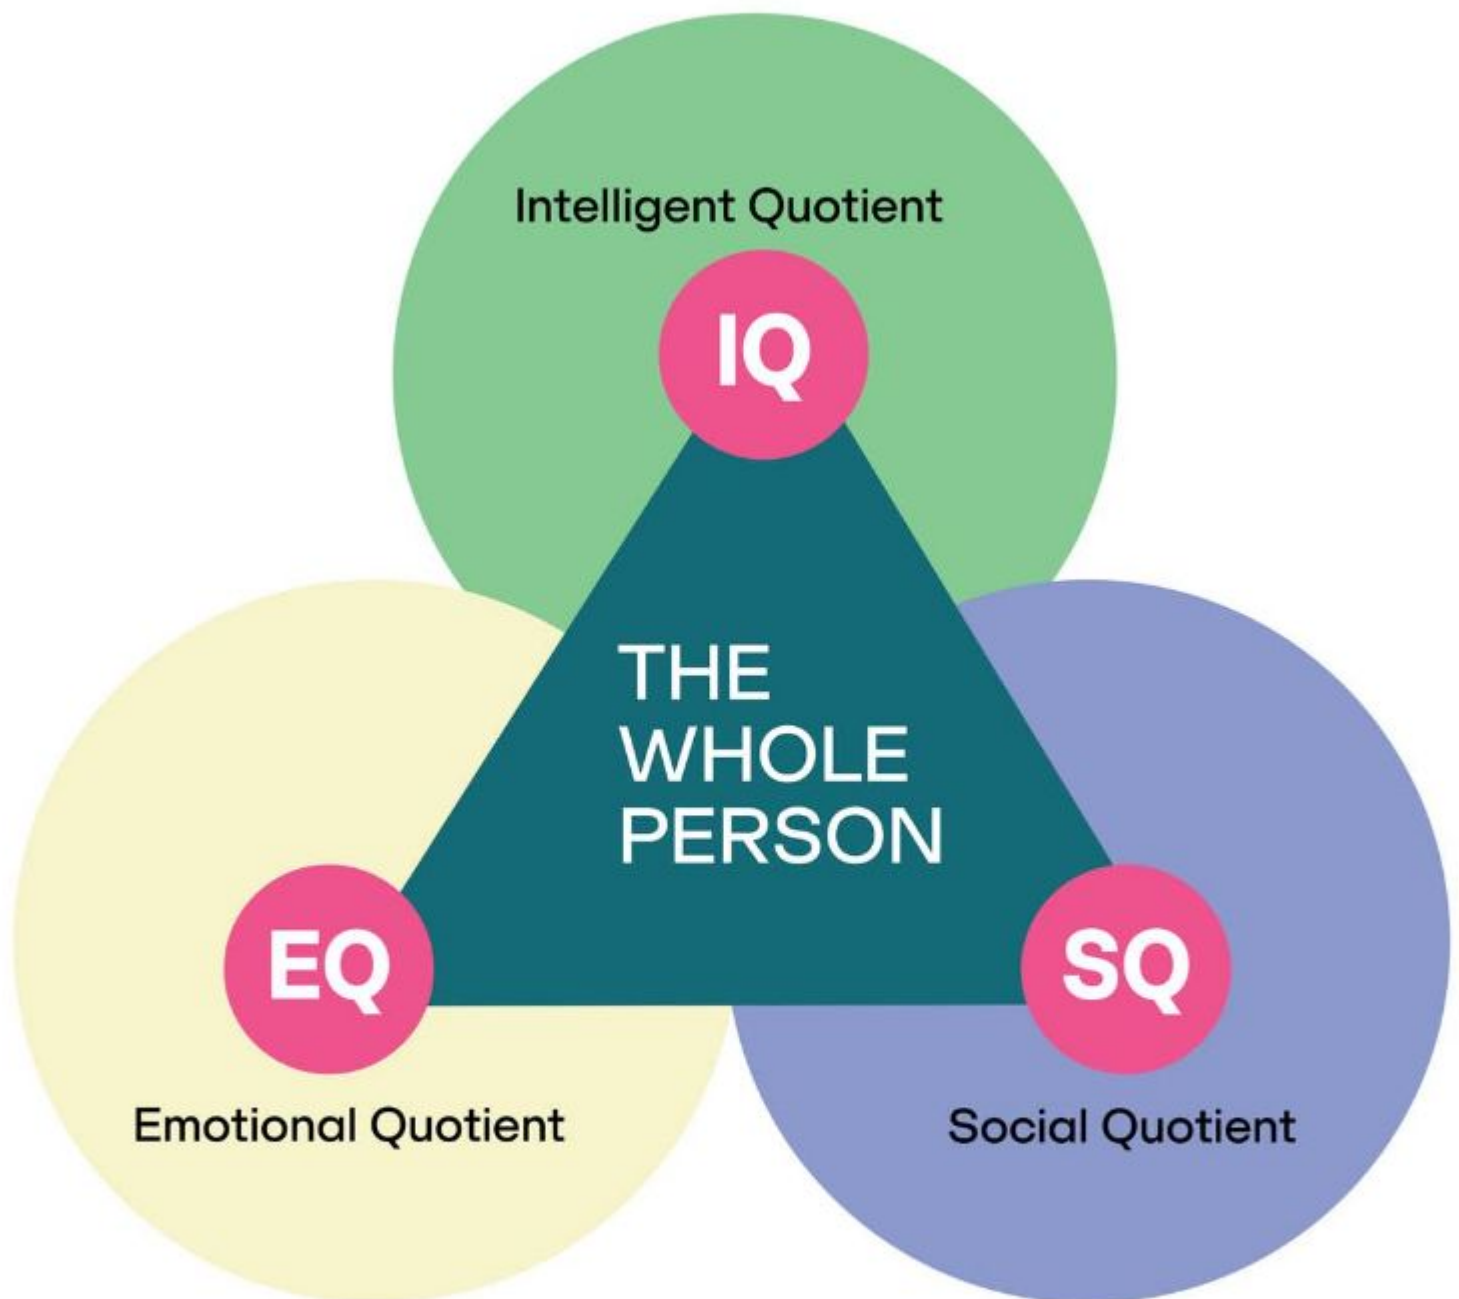

The school assists you in making your dreams true, by creating favourable environment to suit the child's potentialities. The school carries out its responsibilities towards the education of the child and such an educative environment cannot be created and sustained without the co-operation of the public in general and of concerned parents/guardians in particular.

Give me your sincere co-operation; I will make the school a better place for our dear children (In Sha Allah).

Our Distinctions

- To educate the students of both the genders irrespective of caste, class, colour or creed in order to eradicate illiteracy.
- To teach a child to be able to distinguish between good & evil, & to form the habit of choosing good rather than evil.
- To make a child to be able to express articulately in speech, in writing & to develop scientific temper and outlook.
- To inculcate the concept of humansim in the minds and souls of the learners.
- To universalize the process of education by developing National, International & Interuniversal understanding.
- To produce helpful & selfless administrators, doctors, engineers, judges, scientists, intellectuals, social workers, scholars and educationist to the society.
- To develop high moral, spiritual, intellectual & social values; create the spirit of constructive criticism, logical thinking & reasoning & encourage the learners to face the various present day challenges posed by the evils in the society.
- To provide free/concessional education to the orphan, poor, meritorious and deserving students.
- To impart vocational education like art & craft, painting, model making waste material activities, etc. In order to enhance child's skills, abilities and interests.
- To make the students to understand the sense of health care through physical training, sports & games and to have a body that is healthy, strong, energetic and to know how to look after it.
- To uphold national culture and values, whilst fostering global citizenship.
- To create an awareness among the learners of their social, moral, ethical and particularly national responsibilities

"May 'Almighty Allah' guide & help us in righteous path and crown our efforts with success in practical fields (Aameen)"

Achievements of the School

The benchmark for any school is the success rate in the examinations and the selections for various administrative, professional and degree courses. In all fields, FEI has stood the test of the time and has proved its slogan "The School you can Trust; for Education all-round Best".

[Dare to Dream, Learn to Achieve]

Administrative & Professional Selections

Administrative Selections

The following students of FEI have qualified the prestigious "Kashmir Administrative Services" examination and are serving the nation with honour and dignity.

Professional Selections - Medicos

Doctors are next to Almighty Allah for a patient for sustenance and well being. FEI has the unique privilege of producing dozens of selfless Doctors and this has been a continuous feature since its inception.

Professional Selections - Engineers

For Nation building, the role of Engineers can never be undermined and FEI is proud of producing scores of Dedicated Engineers in all branches.

Other Professional Selections

In addition to having produced Medicos and Engineers, FEI has been producing good number of professionals who make us proud in serving the nation in various spheres of life.

Board Examinations

SIE Examination

Class 8th: From the time authorities started conducting examinations of Class 8th under the aegis of SIE through Cluster Heads; FEI has stood on the top by showing 100% result and by securing dozens of positions in each examination.

YEAR	NUMBER APPEARED	NUMBER PASSED	PASS % AGE	POSITIONS

Infrastructure & Facilities

Laboratories - Physics, Chemistry, Botany & Zoology

Natural science is the backbone of every Institution and laboratories act as a spine of observation and experiments.

A science laboratory is a dynamic hub of experimentation and discovery within the realm of education. It serves as a hands-on platform where students can transcend theoretical knowledge and engage in practical applications of scientific concepts. Through experiments, students can observe phenomena, analyze data, and draw conclusions, fostering a deeper understanding of scientific principles. The laboratory setting not only reinforces classroom teachings but also instills vital skills such as precision, collaboration, and critical thinking.

Computer Laboratory

The Information Technology has revolutionized the world and has made the world a global village, thus there's a need to keep the students abreast with latest technological developments for which the institute has a dedicated computer lab having 30 computers with advanced infrastructure in terms of hardware & software catering to the needs of the students. The school is equipped with a dedicated Broadband Internet connection for remaining connected with the outside world.

Library-cum-Reading room facilities

Library is the gateway to information in support of the teaching & learning. A library is a place of an ample solace and knowledge, irrespective of its geographical location. It has a caliber to produce avid readers and well read scholars.

Thomas Macaulay wrote in his minutes, "A single shelf of a good European library was worth the whole native literature of India and Arabia".

Buildings and Playing field facilities

FEI as on date is housed in three concrete buildings having spacious, airy, well furnished class rooms in addition to other associated facilities. Spacious playgrounds for morning assembly, mass drill, sports and games are available.

Audio-visual facilities

Two audio-visual labs are at the service of students to improve their spoken English, general knowledge & other key subjects.

Games & Sports

For all-round development of students; making them understand how to cope up with both winning and losing, Games & Sports develops qualities of leadership, team-work and team-spirit.

Physical activities form an integral part of Education and great emphasis is laid on the aspect. It becomes imperative to provide facilities for various games and sports to all age groups in order to develop their all-round personality and proficiency in games and sports.

Transport facilities

Need for safe passage of each child to school and back home is of paramount importance. Transport facility is the nervous system of an institution. Students from arm-length localities to the far reaching areas gather daily into the school to get educated and transport plays the pivotal role in bringing together the children of different geographical locations and areas; and dropping them safely within the safe authorities and boundaries of the school. To ensure safe travel, the school has it's own fleet of school buses designed as per the standards and manned by trained professionals sensitized to the needs of the children.

Recreation

Recreation is a wonderful way of enjoying and taking a break from the monotony of regular work and studies. As far as students are concerned, it acts as a balm on their physical as well as their psychological development. Outdoor activities like hiking, camping, running, adventure planning are encouraged as these activities help the students to re-programme and re-set their brains to give a fresh start to their routine studies.

Medical check-up

"Prevention is better than cure".

Medical check-ups in school are important to assess healthy growth and development of a child. This preventive check-up data becomes baseline for future reference.

It is a must thing to be setup on a concrete platform in a school. The facility of almost all general ailments and emergency first-aid & medical kits and their smart availability always remains first priority.

Communication

An effective communication between school and home is of paramount importance. The Institute diary is an integral and effective link between the school and parents, for both need to work in unison for better growth and progress of students. It provides a clear view of the school's plan, policies, rules & regulations, establishing an interaction between the parents and teachers. Moreover, the diary is maintained on daily basis to communicate with parents about the home assignments to be completed by the students. Moreover, all important messages, exam related instructions, notices etc. are mentioned in the diary. In addition, class-wise and bus-wise What's App groups are created to pass on important messages to parents.

Bi-annual Parent-Teacher-Student-Meets (PTSM)

Get together with all students, teachers and parents; make parents aware about the feats and errors of students; encourage mutual trust between students, staff and parents.

Fayaz Educational Institute organises Parent-Teacher-Student-Meetings (PTSM) twice and academic session to foster open communication and collaboration between educators, parents, and students. These events serve as platforms for discussing academic progress, addressing concerns, and sharing insights into students' overall development. The PTMs reinforce the institute's commitment to a holistic educational approach, strengthening the partnership between home and school for the benefit of each student's educational journey.

Special Features of Learning

Salah

"Pupils display a well-developed spiritual understanding and a deep sense of, and appreciation for, the importance of non-material aspects of life"

What else you need, when you love Allah so passionately. Oral teachings need a practical wagon to stimulate results. The training of how to get ready for prayer & how to bow all of your griefs before the Almighty is a wonderful practice.

Ablution is purification (hygiene) - a ceremonial act of washing parts of body for the preparation to offer Salah, which is a solemn request for help or expression of thanks addressed to Allah - a communication process that allows us to talk to Allah.

FEI considers it a religious duty to inculcate the passion and awareness in all it's student's, along with the academic and general studies. The efforts are continuous and consistent to make the students religious scholars right from childhood. In order to accomplish this mission, the Institute has five well qualified and dedicated teachers who tirelessly make efforts to accomplish the set goal. The students are practically imparted the instructions and training of performing Ablution and Salah. Praise to Allah, the students perform Salah according to Sunnah. A sepearte provision of performing Ablution and ample space to offer Salah has been provided within school premises.

Islamic & Seerat Conferences

Islamic conference is a formal meeting of people with shared interest regarding Islam, it's teachings, specific fields etc. These events foster inculcation of ideas to promote Islamic concept in the minds and souls of people to become human beings in order

Art & Craft Activities

Art is an integral part of an early childhood that encourages children to express themselves. Art has a role in education to help children become like themselves instead of more like everyone else. Creativity is inventing, experimenting, growing, taking risks, having mistakes and having fun. One who's not artistic is not a human being.

Model Exhibition

Model exhibition is a brilliant medium for students to sculpture their raw talent and innocent creativity and teachers act as a tool in the process of this artistic venture. In this exhibition, students get a chance to apply or do the practical aspect of the things that they have learnt in the classroom.

The model exhibition of today is the technology of tomorrow. Our goal is to impart vocational education to the students like art, craft and waste materials activities in order to enhance their talent, skills, interests & abilities.

Calligraphy

Fayaz Educational Institute hosts captivating calligraphy competitions, bringing together students to showcase their artistic finesse with pen and ink. The events prove to be a vibrant celebration of creativity, where participants craft visually stunning letters and designs. Fayaz Educational Institute remains committed to nurturing artistic expression, and the calligraphy competition is a testament to the institute's dedication to fostering both skill and a passion for the art.

A Green Day - Environment day

The object of this programme is to create awareness among the people to protect the environment from various threats and pledge to keep it safe for our better future.

Fruit Mella (Pre-Primary Department)

It's a very merry moment to see small children showing the innocence & beauty of their talent through displaying the art of fruit dressing & organisation.

The objective of fruit mella is to create awareness about the fruit texture, colour, smell, taste and importance of consumption of fruits and thus educating the children while celebrating. It also provides an opportunity to aware students that fresh fruits are better than junk food.

Food Festival

A food festival in school is a vibrant celebration where students and teachers come together to share their culinary talents and cultural heritage. It's a lively event filled with an array of delicious dishes, ranging from homemade treats to traditional cuisines. It's a fantastic opportunity for everyone to appreciate various flavors, exchange recipes, and learn about different cultures through the universal language of food. The food festival creates an atmosphere of joy, camaraderie, and appreciation for the rich tapestry of culinary traditions within the school.

Ramadan Special

During Ramadan, the school hosts special events that showcase the significance of this holy month within the Islamic faith. These events serve as educational and cultural platforms, offering students opportunities to learn about Ramadan's customs, traditions, and the importance of fasting. School arranges informational sessions, presentations, & workshops highlighting the values of empathy, charity and community solidarity observed during Ramadan. These events aim to foster inclusivity, cultural understanding, and respect for diverse traditions among students, creating a welcoming environment that celebrates the richness of religious and cultural diversity within the school community.

Eid Special

Every child is a different kind of flower and altogether makes this world a beautiful garden. Children are the world's most valuable resources and it's best hope for the future.

Eid is an auspicious occasion of celebration and a milestone of happiness in our lives. It's a fortunate moment to see wonderful scenario during this festive occasion.

Teacher's Day

An event that reminds students that teachers teach from the heart and are passionate educators, providing great help; making students feel safe, secure and confident.

Teacher's Day celebrations in schools are a heartfelt tribute to educators, honoring their dedication, guidance, and contribution to shaping young minds. It's a day when students express gratitude and respect for their teachers through various activities, heartfelt messages, handmade cards, and sometimes special assemblies or performances. It's a time for students to reflect on the impact teachers have had on their academic journey and their mentors. These celebrations aim to create a bond between students and teachers, emphasizing the importance of education and the profound influence of educators in shaping future generations.

Children's Day

The Children's Day celebration in schools is a joyous occasion dedicated to commemorating childhood and honoring the spirit of children worldwide. It's a day filled with fun activities, games, cultural performances, and special events designed to make children feel cherished and valued. It's a time when teachers, staff, and students come together to create a vibrant and inclusive atmosphere, fostering a sense of camaraderie and happiness among the children. The celebration aims to recognize and appreciate the role of children in shaping the future while encouraging their individuality and fostering a nurturing environment for their growth and development.

Cultural Activities

Culture is a breathing system of any civilization. Culture has the power to mould a thorny bush into a bouquet of beautiful flowers. School is a hub of cultural fest where the students, from basic to higher level get an opportunity to get educated and become aware of their culture.

The students are encouraged to participate in different types of competitions viz, Quiz, Art, Writing, Sports, Debates, Seminars, Model & Science exhibitions, Cultural programmes etc. to expose the inner talent and to provide a vent to the hidden capabilities of learners.

Trips & Excursions

Study Nature, love Nature, Stay close to Nature. Outing and educational adventures act as an exilir in refreshing and resetting the mind and body of students as well as their mentors.

(A) Excursion

The school orchestrates captivating excursions for all its students. Guided by knowledgeable educators, they delve into the significance of each artifact and discover the cultural heritage embedded in the ancient reign. The excursion not only enriches their academic understanding but also fosters camaraderie among the students.

(B) Winter Trip

Going on a winter trip with school is an exciting and memorable experience. From the anticipation of packing warm clothes to the thrill of exploring snowy landscapes, these trips foster strong bonds among classmates. These trips not only provide a break from routine but also offer unique learning opportunities, teaching teamwork, resilience, and appreciation for nature's winter beauty.

(C) Industrial Visit

The industrial visit for school students serves as a bridge between theoretical knowledge and practical application, offering invaluable insights into real-world operations. These visits instill a deeper understanding of industrial processes, technology, and organizational structures. Students witness firsthand how their classroom learning translates into the functioning of industries, sparking curiosity and enhancing their perspective on various career paths. These experiences often inspire them, fostering a sense of innovation and motivation to explore diverse sectors while equipping them with practical knowledge beyond textbooks.

Camps & Trekking

Camping Trek is a classic style of a trek especially conducted in remote areas supplying for all camping equipment along with food, shelter and supplies. School camping, such as outdoor or nature camps, provides students with experiential learning opportunities beyond traditional classroom settings. These experiences foster teamwork, resilience, and problem-solving skills, encouraging personal growth and a deeper connection with the natural world. Integrating both school tracking for academic growth and camping for holistic development offers a balanced educational approach, catering to diverse student needs and fostering well-rounded individuals prepared for the challenges of the future.

Fire Disaster Awareness and Prevention

Fire disaster awareness programmes in schools play a pivotal role in nurturing a safety-conscious generation. These programs are imperative as they instill crucial knowledge and practices that equip students with the skills needed to prevent, prepare for, and respond to fire emergencies. By educating young minds about fire safety measures, evacuation protocols, and the proper use of fire extinguishing equipment, these programs not only ensure the safety of students and staff but also cultivate a broader culture of preparedness within the community.

Examinations

Accountability is the fundamental principle of making students work with dedication and enthusiasm. Under the aegis of NEP-2020 round the year assessment helps students to learn without burden. FEI has enforced the concept of honest and fair examination system among its students and students are taught to 'stand on their own legs' rather than move forward through cheating. This is the reason that FEIans have proved to be sincere students at all levels – be it colleges or universities, wherefrom the school has got all appreciations for training a selfless lot of students.

Admission Process

I. General Admission

- a) Subject to vacancy, admission is open to all, irrespective of caste, creed, colour, class or religion.
- b) A child who completes 3 years of age before the academic year starts, would be eligible for admission in Nursery and so on.
- c) Application for admission from Nursery to Ist, on prescribed form should come from the parents/guardians upto the middle of February along with the date of birth certificate from the Municipality/Competent authority. In case of other classes (2nd to 10th) discharge certificate (original) & Marks Card of the Institute previously attended by the student, shall have to be appended with the admission form. For classes 11th & 12th, original Provisional & Character certificates of the School last attended and SS Examination Marks Card are to be attached with the application form.
- d) A student seeking admission from other districts shall have to produce Migration Certificate in addition to other candidates.

II. Free Education for Orphan:

Each year two orphans (one Girl & one Boy) shall be enrolled in Class Nursery in fond memory of Late Raja Ali & Late Abdul Samad (Founders of FEI). They shall be provided free education till Class 10th subject to the condition that these students exhibit utmost dedication and respectfully qualify each examination.
